We got married recently during the pandemic wherein we were supposed to invite limited guests due to Covid protocols. We were initially skeptical like everyone else and concerned about the safety of the attendees. All the worry and skepticism just vanished the moment we stepped into Miraya Greens. All the Covid safety protocols were followed right from thermal screening, oxygen monitoring and maintaining social distancing all over the venue. The staff were extremely courteous and provided top class service throughout the day and night as well if needed. I have attended many weddings in the recent past but i would recommend Miraya Greens hands down because of my personal experience. Not only weddings, i would recommend Miraya Greens for any family event since they accommodate all your needs according to your requirements. Please visit the venue if you haven't already and checkout the wonderful place and all the amenities. My number one place for any family function from now onwards.

The venue is well maintained and the staff is very helpful. We were concerned about conducting wedding during the pandemic, but proper check-up was conducted for all the guests at the wedding. High priority is given to hygiene factor in the entire venue. Rooms are well maintained and very well planned for all sorts of requirements. Perfect place for a wedding or any other occasion. We have a discretion to select indoor or outdoor space. I would never regret choosing this venue. The venue looks lit with proper decoration and lighting.

Choosing Miraya as my wedding venue was the best decision we made throughout the wedding process. Staff is extremely humble and polite. Mr.Lohith was extremely supportive, also Mr.Raj. Out of all the outdoor venues we saw in Bangalore, Miraya has the best maintenance of washrooms and rooms. And they provide accommodation for 100 guests comfortably. Thanks to the entire team!! ❤️ I don't have a single negative thing to mention about the venue.
